EDUCATION AND CERTIFICATIONS

University of Windsor

Bachelor of Computer Science (Honours) – Applied Computing

Certificate in Applied Information Technology

Windsor, Ontario

Sept 2018 – June 2022

WORK EXPERIENCE

Software Engineer

Vosyn.ai

Etobicoke, Ontario

February 2024 – May 2024

- Developed and designed **B2C software** projected to support **1,000+** users, ensuring a **scalable and visually cohesive interface**.
- Translated **Figma prototypes into responsive front-end code**, maintaining design accuracy and visual consistency across devices.
- Enhanced **application performance by 15%**, improving user experience and load times on marketing pages.
- Collaborated with designers and content teams to **optimize layout responsiveness**, leading to a **15% drop in bounce rate on mobile**.
- Created **reusable UI components** and animations to improve interaction quality and code efficiency.

Software Developer

Ever.Ag

Windsor, Ontario

February 2023 – September 2023

- Completely revamped the front-end interface** to a more **modern, accessible design**, ensuring compliance with **WCAG accessibility standards** and improving overall usability.
- Detected and isolated a **production-level performance bug**, verified the implemented fix, and eliminated major lag spikes for clients with large datasets.
- Contributed to **ERP and CRM software development**, improving workflow efficiency for over 20 clients.
- Created **dynamic, mobile-first front-end interfaces** using JavaScript, CSS, and LESS.
- Streamlined form development using OOP principles, achieving a **30% increase in development efficiency**.
- Collaborated with cross-functional teams to align **front-end interfaces with UX design and client branding**.

PROJECTS

Movie Library Browse | C#, NoSQL, Unit Testing, React.js, MongoDB, Postman, MVC

- Designed and developed a **movie browsing web application** featuring an interactive and responsive UI.
- Built and tested **RESTful APIs** to ensure smooth data communication between backend and frontend systems.
- Conducted **unit and integration testing** using Postman to maintain reliability and performance.

[Ecommerce Bookstore Data Warehouse](#) | HTML5, CSS3, PHP, JavaScript, Bootstrap

- Designed **responsive eCommerce web pages** with Bootstrap and jQuery to enhance visual appeal and user engagement.
- Developed a **data-driven inventory and order management system**, leveraging advanced SQL queries and views.
